# CAMUNDA CHAMPION PROGRAM

---

# What's the Camunda Champion Program?

With the Camunda Champion Program we want to give our most active community contributors credit for the work they're doing and **set them up for success.**

Champions receive the title for one year and they can renew their status afterwards.

# Who is a Camunda Champion?

Camunda Champions are **loyal, helpful and collaborative community members** who actively support the Camunda Community. There's no one size fits all - Each community member has different strengths.

## Contributions from Champions might include:

- Speaking at events
- Leading User Groups & organizing events
- Answering questions on the Forum
- Releasing library or plugins
- Writing content about Camunda, such as blog posts
- And much more ...
